Profile

I'm a passionate and driven individual with a solid background in computer applications and a love for creating digital solutions that truly work for people. I've gained hands-on experience in web development and UI/UX design through various projects, which helped me sharpen my problem-solving skills and grow creatively. I enjoy learning new technologies and adapting quickly to new challenges. I'm now looking for an opportunity where I can be part of a forward-thinking team and continue growing as a tech professional.

Education

MCA, *Marian College Kuttikkanam*   2023 – 2025
A two-year postgraduate program focused on advanced areas of computer science,   Kuttikkanam, India
including software development, data structures, machine learning, and system
design. Developed strong technical and analytical skills through hands-on projects,
internships, and real-world applications. Gained practical experience with modern
tools and technologies such as Python, Django, React, and cloud platforms,
preparing for professional roles in the tech industry.

BCA, *JPM Arts & Science College*   2020 – 2023
A comprehensive three-year program that provided a strong foundation in   Labbakkada, India
computer programming, database management, web development, and software
engineering. Developed practical skills through project-based learning and gained
exposure to key technologies such as HTML, CSS, JavaScript, Python, and Java.
Built several academic projects focusing on real-world applications and user-
friendly design.
